

UC DAVIS

Center for Aquatic Biology & Aquaculture

2020 BOB BITTNER SCHOLARSHIP

Available Through

The California Fly Fishers Unlimited Club

\$2,000 Scholarship

Open to UC Davis Graduate Students who are working on fisheries biology and/or riparian or limnetic ecology research that is beneficial to California's recreational or commercial fisheries.

Applications must be submitted by April 24, 2020.

**Please email applications to Bill Felts at
befelts@yahoo.com**

**For additional information and application package,
please visit the CABA website: <http://caba.ucdavis.edu>**

INSTRUCTIONS FOR APPLYING FOR THE 2020 BOB BITTNER SCHOLARSHIP

This is the information required for applying for the Bob Bittner Scholarship provided by the California Fly Fishers' Unlimited Club of Sacramento. The amount of the single Scholarship is \$2,000:

1. Provide your full name, mailing address, phone number and email address.
2. Submit a one to two page description of your research project in non-technical terms. Indicate how your research results will aid decision makers in improving the health of fish and fish habitat. Most likely, your description will be evaluated by laypeople not familiar with scientific language. Remember, our Club's interests are fishing for trout, bass, salmon and similar species in California's streams, rivers, and lakes in northern California. The closer your research relates to the improvement to the health of these fish and their habitats, the better will be your chances of the award.
3. Identify the need for this funding and how the money would be spent on your research. Please limit this section to one page.
4. Sign the application and email it to Bill Felts at befelts@yahoo.com

Note: the application deadline is April 24, 2020.

The California Fly Fishers Unlimited Club requires the scholarship winner to give a 15-20 minute summary of his or her research project at one of our monthly meetings in Sacramento, at which time we will present the award check.

If you have any questions, please email me or contact me by phone at (916) 768-0658.
